INSTRUCTIONS

1. In answering each Request, please state the text of the Request prior to providing the response. Each Request and applicable response should be on a separate page. Where there are subparts to a Request, each subpart and applicable response should be on a separate page. Each Request is continuing in nature. Thus, if SCE&G acquires or discovers additional or different information with respect to a Request after the Request has been initially answered, SCE&G is required to supplement its response immediately following the receipt of such additional or different information, giving the additional or different information to the same extent as originally requested. SCE&G may not postpone serving such responsive supplemental information until after the filing of any testimony or supporting documents in this proceeding. Initial and supplementary responses shall be full, complete and accurate since they will be relied upon by SMI for the purposes of this proceeding. For each Request, list all assumptions made by SCE&G in answering said Request.
2. In the event that SCE&G asserts that any of the information requested is deemed by it to be privileged or proprietary, then SCE&G in its written response should identify any such data, and any supporting documents, by date and general content. SCE&G should also identify all persons who participated in the preparation of the document and all persons, inside or outside SCE&G, who received a copy, read or examined any such document. In addition, SCE&G should indicate its claim of privilege with particularity and describe the grounds upon which privilege is claimed. State the present location of the document and all copies thereof and identify each person having custody or control of the document and said copies.
3. To the extent that SCE&G asserts that any requested information is not relevant or not material to any issue in the above-captioned matter, SCE&G, in its written response hereto, should indicate a specific basis for said assertion in the context of any issues arising in this proceeding.
4. In the event SCE&G asserts that any requested information is not available in the form requested, SCE&G, in its written response thereto, should disclose the following:
 - (a) the form in which the requested data currently exists (identifying

5. The Requests contained herein contemplate that individual copies of all documentary material requested will be provided to SMI as is the usual custom in regulatory proceedings. In the event that SCE&G asserts that any requested documents are too voluminous, or, for some other reason, that copies cannot be provided, SCE&G is requested to make this documentary material available for inspection as of the date of the required written responses at the offices of Bruner, Powell, Robbins, Wall & Mullins, LLC, 1735 St. Julian Place, Suite 200, Columbia, SC 29260-1110, or at such other time and place as may be mutually agreed upon among counsel for the parties. 6. In providing documents, SCE&G is requested to furnish all documents or items in its physical possession or custody, as well as those materials under the physical possession, custody or control of any other person acting or purporting to act on behalf of SCE&G or any of SCE&G's employees or representatives, whether as an agent, independent contractor, attorney, consultant, witness, or otherwise. If documents responsive to a request existed at one time but have been discarded, lost or destroyed, please describe by category such documents, state the identity of the person having knowledge of the circumstances of their discard, loss or destruction, and state the date on which such documents were discarded, lost or destroyed.
7. To the extent any requested document cannot be provided in full, it shall be provided to the extent possible, with an indication of what document or portion of what document is being withheld and the reasons for withholding said document.
8. Documents are to be produced as they are kept in the usual course of business. To the extent that they are attached to each other, documents should not be separated.
